

Ground Shipping Cost: ONLY \$75.00

Transportation: Black Lace Hedgehogs is happy to announce we will be working with KDS Kritters to provide safe and reliable transportation for our hedgehogs. This will allow us to reach customers all over the United States!

While Traveling: Black Lace Hedgehogs will provide a comfortable and size appropriate Taconic (travel tote) for your hedgehog to transport in. We will also provide food and extra bedding for spot cleaning. The transporter uses disposable gloves to clean totes and changes them in between totes, for sanitary purposes. The transporter will provide disposable food and water cups. The transporter is a non smoker and drives a smoke free car. They also have years of experience with raising different animals, including hedgehogs. We trust that your baby will be in the BEST OF CARE while traveling!

Delivery: The transporter will not deliver or pick up between midnight and 6:00 a.m. unless requested. This allows for time to be made up in the schedule if needed. It also allows for free play time for the babies, time for them to feed and water and spot clean totes.

Updates: You will be added to a Facebook group where the transporter will post updates on location and timeframes, along with photos occasionally. Each stop will receive a live location link through messenger from them one hour prior to delivery. If the person does not respond then they will attempt to text their personal phone 15 to 30 minutes before delivery. However texting multiple updates within the last hour is very time consuming, so live location helps them tremendously.
